Cowgirl Chicks Rock Rodeo

Cowgirl

The Cowgirl Chicks are a breathtaking group of Texas cowgirls that provide an impressive demonstration of horsemanship and personality.

Not only do they put on a thrilling show but they ride for a purpose - to help those battling the mental and physical effects of cancer. Recognized all over the Rodeo Circuit for their exceptional skill in handling and riding horses, the Cowgirl Chicks have traveled well over 300,000 miles blazing a trail of hope for cancer patients and their families. Whether its raising money for the cause, donating their retired horses to cancer patients, or just putting on a show these girls know how to make dreams a reality. They have become one of the most respected, admired and loved Rodeo Acts in the Country who can ride their "Wrangler Jeans" off!

One may call this group of 18 girls a rodeo entertainment drill team but they are so much more. The Cowgirl Chicks desire to bring the Rodeo World the most exciting, explosive, patriotic rodeo act entertainment has to offer.

Chicks Rock Rodeo

Confident of who they are and what they are riding for, these girls blossom in the spotlight of the arena and leave the crowd swelling with patriotism and in complete awe. Their show includes such moves like the hippodrome, fender drag, four way cross, the death drag, a crowd favorite called the pinwheel and chutes 'n ladders. All of these are performed with amazing timing, speed and awe-inspiring pageantry.

If you are looking for a Rodeo entertainment act that will "Rock Your Rodeo" you need to look no further. You will get the true, genuine cowgirl spirit embodied in this patriotic group of Cowgirls. These Cowgirls display not only a spectacular and daring rodeo performance with fast horses, trick-riding and fireworks

off horseback, but a demonstration of patriotism that you will ever witness.

The Cowgirl Chick Way

The highest goal of the Cowgirl Chick's organization is to perform above and beyond all expectations. They train extremely hard every week of the year (no off season here!) to bring a safe routine which consistently replicates proper techniques. Beyond this goal is the ever resounding call to help people in need. The Cowgirl Chicks believe they can pull the best out of anyone, whether it is young man battling cancer or a young girl with stars in her eyes. They inspire all who witness their performance to seek a higher vision of themselves.

The experience of performing, training and being part

of something spectacular helps the Cowgirl Chicks develop skills that extend beyond the fences of the show floor. They develop life skills and vital tools that give them a chance to become winners in other aspects of their life. They develop an inner strength and confidence that comes with daily training and conditioning as well as a sense of dedication that only working so closely with a horse can achieve.

The Cowgirl Chick Way brings together all the working ingredients that build human character. This program is an education in positive human development, where the core of one's essence is more important than the end result. The vision of this team and the mission in their ride is something to be recognized as well as admired.....these are not just flashy cowgirls; these girls are hands down the best in Western Tradition and most of all.....a true legacy.

Riding for a cure for cancer has given the Cowgirl Chick's a chance to give back to the community that welcomes them with open hearts. Whether they are visiting a Children's Hospital with children undergoing chemotherapy treatments or they are providing a retired horse as therapy to a cancer survivor the goal remains the same; to inspire, to entertain and to help those who can't help themselves.
